How One Little Girl with a Burroughs Keeps the Evinrude Books

All the left are shown the Burroughs Statement Form. For more information, see the advertisement on page 100.

BOOKKEEPING had become a problem for the Evinrude Motor Company. Posting ledgers, making the trial balance, and getting out statements by hand, took more and more time as the business grew and accounts multiplied.

400 Postings a Day

This was painstaking work and took all the time of two bookkeepers. Still they could have managed if a book's books had that other job which loomed big at the end of the month.

Over 1000 Statements

Even working overtime wouldn't get those statements out on the first of the month. So the work dragged along, often to the work. Yet the management knew that early statements got the money. Something had to be done.

Finding the Way Out

It was a Burroughs Ledger Posting and Statement Machine that solved the problem. It enables one little girl to do all the work—posting the 400 items each day, getting a new balance on every changed account, getting out all the statements on the first—each time to pass for other work. The Evinrude Company saved its cost the first year.

Old balance, date, status like PTD for party, debt, credit, and automatically computed new balance, are quickly entered on the ledger page. No special training is necessary to operate the Burroughs.

Daily Balance and Proof of Posting

At the same time the Burroughs automatically lets each day's postings which are totaled against the total from the previous medium—thus immediately checking and proving the work.

And the credit department can know the balance of any account any time at a glance.

All the Statements in One Day

The strain and worry of getting out the statements has entirely disappeared. The whole batch is taken off the books by machine and mailed out the same day.

A Little Girl Can Keep Your Books

This story of the little girl, the Burroughs, and the Evinrude books, is typical of hundreds of other stories. No matter whether you deal in real-estate matters or what, you can save money, insure accuracy and increase speed by letting the Burroughs help post your books and get out your statements promptly.

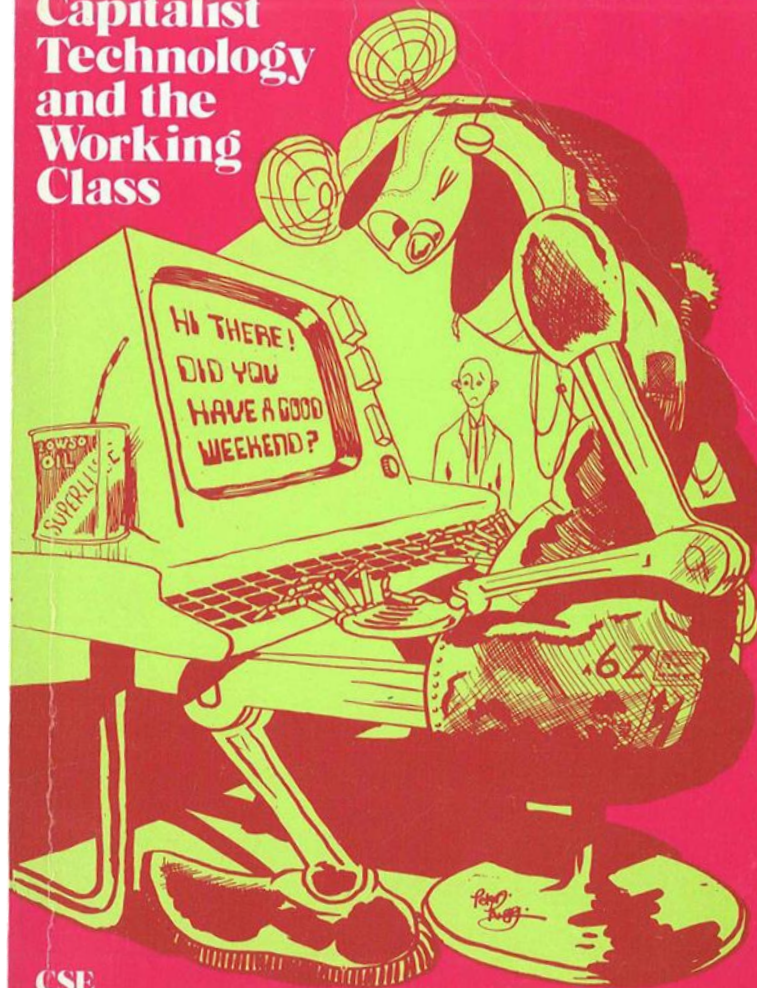

Let the Burroughs representatives show you, without obligation, the new model of our '66 that will keep your books in the way you want them kept. Your telephone book or your banker will direct you to the nearest of the 170 Burroughs offices. Or, write to the factory—Address, Burroughs, Division, Michigan.

'SWIFT is the virgin honey, though the wild bee store it in a reed;
And bright the jewelled band that circlet an Ethiop's arm;
Pure are the grains of gold in the turbid stream of the Ganges;
And fair the living flowers that spring from the dull cold sod.
Wherefore, thou gentle student, bend thine ear to my speech,
For I also am as thou art, our hearts can commune together:
To meanest matters will I stoop, for mean is the lot of mortal;
I will rise to nobles: and, for the soul hath a heritage of glory.'

Dearest Mother,

As you have seen by the papers things have been humming over here - and consequently we have been rather busy - all the men in our division have now gone up to help hold the line and keep the Boche from getting through to Paris. So we closed the canteens and these little towns are as empty as my tin helmet. You ought to see how becoming it is to us - and as for the gas mask - that is a thing of beauty. I'd send you a picture of it but I'm afraid the censor wouldn't pass it.

Last night Miss du Bois and I had the most interesting experience. The truces stopped for us at the little school house about 9 o'clock and we loaded on our trunks etc. and were taken to the railroad station at 13 - where the troops were ex-training. There we stayed all night
