E-mail accounts are available to those who retire but not to those who are terminated. Make sure you submit your request to your unit supervisor/human resources adviser prior to actual retirement.

Estate Planning and Health Directives

• This set of materials is not legal advice. It is intended to help you, your appointed agents, your family and your survivors decide what and when professional advice is needed. For legal advice you may need to consult an attorney, a financial planner, an investment counselor, your banker and any other professionals who can help you make and execute legal documents. Given that the University of Minnesota retirees are scattered throughout the world, it is important to check on the laws of your state—not just Minnesota.
• It is important to bring together all of your personal documents to record the source, identification numbers, dates of purchase and expiration dates. These include, but are not limited to: bank accounts, life insurance policies, health insurance policies, mortgage information, wills, investments and others. Also list names and telephone numbers of lawyers, executors and trustees. Blank forms which can be used to organize the collection of this information are posted on our website, umra.umn.edu/member-services/resources (Personal Financial Statement, Location of Documents, Contact Information, Personal Information, Spouse/Partner’s Personal Information, Powers of Attorney, Appointed and Legal Contacts, Bank, Credit Union & Other Financial Contacts, Medical Contacts, Organizations to Contact Upon Incapacity, Disability, or Death).
• Make decisions regarding the directive surrounding your health and eventual death – planning for incapacity, identifying your end of life services and care. Identify someone to have the power to enforce those wishes.
• Meet with members of your family you wish to have involved in these discussions, carefully talk over your plans and desires on how you want to pass on your assets and deal with end of life services. A clear plan saves many arguments that may occur amongst your survivors.

Giving to the University of Minnesota Foundation

• As a donor you decide what your donation will support. Discuss options with a representative of the Foundation. Donations are tax-deductible. Major gifts should be structured to the benefit of both the donor and the University. giving.umn.edu
